

I ask you to reconsider renewal of Sinclair Broadcasting's license in light of their blatant disregard for the public interest. Not only has Sinclair abused the public trust by making a significant in-kind grant to one presidential candidate (President Bush) by running non-paid advertising; it also abused the public trust by refusing to broadcast the names of servicemen and women killed in Iraq. The first of these abuses is an insult to the Constitution, while the second is an insult to the men and women who laid down their lives to protect the Constitution.
